## DETAILED ACTION

### *Claim Objections*

1. Claim 27 is objected to because of the following informalities. The structures do not include a bridge, and therefore the bridge parameter "y" should not appear in the claim. "y" should be deleted from the second structure and in the description of the cyclopentadienyl at lines 3 and 19 of text. Appropriate correction is required.

### *Double Patenting*

2. Claim 41 is provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 27-32 of copending Application No. 07/973,261. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed species is an obvious selection from the claimed genus. One of ordinary skill in the art would be motivated to select the claimed species because it has been disclosed in the '261 application at page 23, lines 25-26.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

***Allowable Subject Matter***

3. Claims 44-47 are objected to as being dependent upon a base claim which has been objected to, but all of claims 27 and 44-47 would be allowable upon correction of the issue set forth in item 1.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberto Rábago whose telephone number is (571) 272-1109. The examiner can normally be reached on Monday - Friday from 8:00 - 4:00.
